

## **Workshop 1A**

### ***Evaluation, Part I***

**Friday, April 13**

**10 am – 12 noon**

**Assembly Room, 4<sup>th</sup> floor Rackham**

#### **Lead Organizers**

Ethan Allen, Manager, Education & Outreach, Center for Nanotechnology, University of Washington

Anne Donnelly, Director, Southeast Alliance for Graduate Education and the Professoriate Program, University of Florida

#### **Abstract**

For this session, Kevin Dilley and Jane Earle will present the evaluation model they have used for their Research Experiences for Teachers (RET) program. They will then lead participants through a comparison of elements of this model to participants' outreach programs.

#### Presentation

- Brief overview of CCMR's RET I and II programs
- Description of evaluation model
- Implementation of evaluation plan - preliminary results

#### Workshop

- Participants will divide into small groups (<5 per group)
- Leaders will use participants' programs to go through steps of the evaluation model, which include differentiation, definition, prioritization and operationalization.
- Participants have been asked to volunteer their programs to be used in the workshop, and to bring documentation and information on their programs.

#### **Speakers**

Kevin Dilley, Educational Programs Manager, Cornell Center for Materials Research (CCMR)

Jane Earle, Educational Programs Coordinator, Cornell Center for Materials Research (CCMR)

#### **Recorder / Reporter**

Lowana Greensky, NSF Science and Technology Center / National Center for Earth-surface Dynamics
